Dear Mr. Brand:

I am pleased to accept your offer to become an advisor for your film on Abraham Joshua Heschel. He was clearly an important figure in American religious history and was a valued ally of the civil rights movement. A documentary on his life would be a major contribution to popular understanding of modern American history.

I look forward to working closely with you and, in particular, helping you illuminate the close relationship between Heschel and Martin Luther King, Jr. -- a topic that has long interested me. The resources of the Martin Luther King, Jr., Papers Project will be at your disposal as you assemble the documents and audio-visual materials need for "A Passion for God."

Best wishes,

Clayborne Carson
Professor of history
