Dear Steve,

I am delighted that you are interested in making a film about my father's life and work. I was most impressed with your film, *Kaddish*. I will be happy to participate both as a consultant and as an interview subject, to the extent that my time allows. I may be helpful in pointing you towards people who would be important interview subjects, both in terms of those who knew him well and those who were greatly influenced by him, and I would be happy to make some family photographs and other memorabilia available for filming.

I wish you much success with your fundraising efforts.

Sincerely,

Susannah Heschel
